NUT AGI FRAMEWORK: User-Facing Transparency Statements

Template Library for Compliance Labeling

1. General AI Interaction Disclosure (EU/Global)

⚠️ **AI-Generated Content Notice**

You are interacting with Nut, an artificial intelligence system developed by Nrutseab Ltd. This system uses advanced machine learning and symbolic reasoning to generate responses. Outputs may include synthetic content generated by AI and should be verified before use in critical decisions. Human oversight and safety controls are in place. For more information about how Nut works and your data rights, please review our Terms of Service and Privacy Policy at nrutseab.com/legal.

2. Financial Services Disclosure

⚠️ **Financial AI Advisory Notice**

Nut AGI generates financial analysis and recommendations using AI algorithms. These outputs are probabilistic and may contain errors. DO NOT rely solely on AI-generated financial advice for investment decisions. All financial outputs should be reviewed by qualified financial professionals before implementation. Nut AGI is not a registered financial advisor and does not guarantee investment performance. Past performance does not indicate future results. Human oversight protocols are in place for all financial recommendations.

3. Employment/HR Disclosure

⚠️ **AI-Assisted HR Decision Notice**

This hiring/evaluation process includes AI-assisted screening provided by Nut AGI. AI analysis is used as a support tool only and does not make final employment decisions. All candidates are reviewed by qualified human decision-makers. You have the right to request human review of any AI-assisted evaluation. To exercise this right or learn more about the AI system used, contact hello@nrutseab.com. For data protection inquiries, see our Privacy Policy.

4. China - Explicit Content Labeling (Text)

【提示】人工智能生成内容

本内容由人工智能（Nut AGI）生成

生成服务提供者：Nrutseab Ltd.

内容编号：[YYMMDD]-[Timestamp]-[Unique Content ID]

English Translation:

【Notice】AI-Generated Content This content is generated by artificial intelligence (Nut AGI) Service Provider: Nrutseab Ltd. Content ID: [YYMMDD]-[Timestamp]-[Unique Content ID]

5. China - Implicit Metadata Template (JSON)

Embed in file metadata or JSON:

```json
{   "ai_generated": true,   "system_name": "Nut AGI Framework v.0.1", "provider": "Nrutseab Ltd.",   "provider_id": "nrutseab-ltd-cn-001", "content_id": "nut-[uuid]",   "generation_timestamp": "2026-01-30T12:00:00Z", "model_version": "0.1.0",   "content_type": "text|image|video|audio", "attributes": {     "modality": "multimodal",     "domain": "finance|creative|enterprise|research",     "language": "zh-CN|en-US"   } }
```

6. Creative Content Attribution

🎨 AI-Assisted Creative Work

This creative work was produced with assistance from Nut AGI, an artificial intelligence system. The AI contributed to [ideation|composition|layout|design|optimization] while [artist/creator name] provided creative direction, curation, and final artistic decisions. This work represents a human-AI collaboration. For licensing and attribution inquiries, contact hello@nrutseab.com.

7. Research/Scientific Output Disclosure

🏛 AI-Assisted Research Notice

This research output was generated with assistance from Nut AGI for [data analysis|hypothesis generation|literature review|experimental design]. All AI-generated hypotheses and findings have been validated by qualified researchers. AI tools were used to augment, not replace, scientific judgment. Methodology details are available in the full research documentation. For questions about AI usage in this research, contact hello@nrutseab.com.

8. Terms of Service - AI Interaction Clause

8.1 AI System Disclosure

By using Nut AGI, you acknowledge that you are interacting with an artificial intelligence system. The Service uses machine learning algorithms, symbolic reasoning, and continuous learning mechanisms to generate responses and outputs.

8.2 Output Reliability

All outputs from Nut AGI are probabilistic and may contain errors, biases, or inaccuracies. You acknowledge that:

(a) AI outputs should be independently verified before use in critical decisions

(b) Nrutseab Ltd. does not guarantee the accuracy, completeness, or reliability of AI-generated content

(c) You remain solely responsible for decisions made based on AI outputs

8.3 Human Oversight

Nut AGI implements human oversight protocols including Safety Net Protocol (SNP) and human-in-the-loop reviews for high-risk outputs. However, you should not assume all outputs have been human-reviewed unless explicitly stated.

8.4 Limitations

Nut AGI is currently in pre-beta development. Known limitations include:

• Performance metrics subject to Q4 2025 validation
• Scalability untested beyond 2TB datasets
• Audio/video modalities at 70% fidelity
• 5% edge-case failure rate in adversarial testing
• Not approved for safety-critical applications (medical, aviation, nuclear)

8.5 Prohibited Uses

You agree NOT to use Nut AGI for:

• Medical diagnosis or treatment decisions without physician oversight
• Safety-critical infrastructure management
• Illegal activities or circumventing legal requirements
• Creating misleading or deceptive content without disclosure
• Any use that violates applicable laws or regulations

9. Privacy Policy - AI Data Processing Clause

9.1 Data Collection for AI Training

We collect and process your interactions with Nut AGI to improve system performance. This includes:

- Your queries and prompts (pseudonymized after 30 days)
- System responses and outputs
- Your feedback and corrections
- Performance and error logs

9.2 Legal Basis

- Consent: By using the Service, you consent to AI data processing (GDPR Art. 6(1)(a))
- Contract: Processing necessary for service performance (GDPR Art. 6(1)(b))
- Legitimate Interest: System improvement and fraud prevention (GDPR Art. 6(1)(f))

9.3 Your Rights

- Right to Access: Request copies of your interaction data
- Right to Erasure: Request deletion of your personal data
- Right to Object: Opt-out of data processing for AI training
- Right to Data Portability: Export your data in machine-readable format

To exercise these rights, contact: privacy@nrutseab.com

10. Acceptable Use Policy - AI-Specific Provisions

10.1 Responsible AI Use

When using Nut AGI, you agree to:

- Disclose AI involvement when sharing AI-generated content publicly
- Verify AI outputs before use in professional or critical contexts
- Respect intellectual property rights in prompts and outputs
- Report errors, biases, or safety concerns to safety@nrutseab.com

10.2 Prohibited AI Misuse

- Attempting to circumvent safety controls or content filters
- Using AI to generate harmful, illegal, or discriminatory content
- Misrepresenting AI outputs as human-created without disclosure
- Reverse engineering or extracting training data
- Automated scraping or abuse of API rate limits
